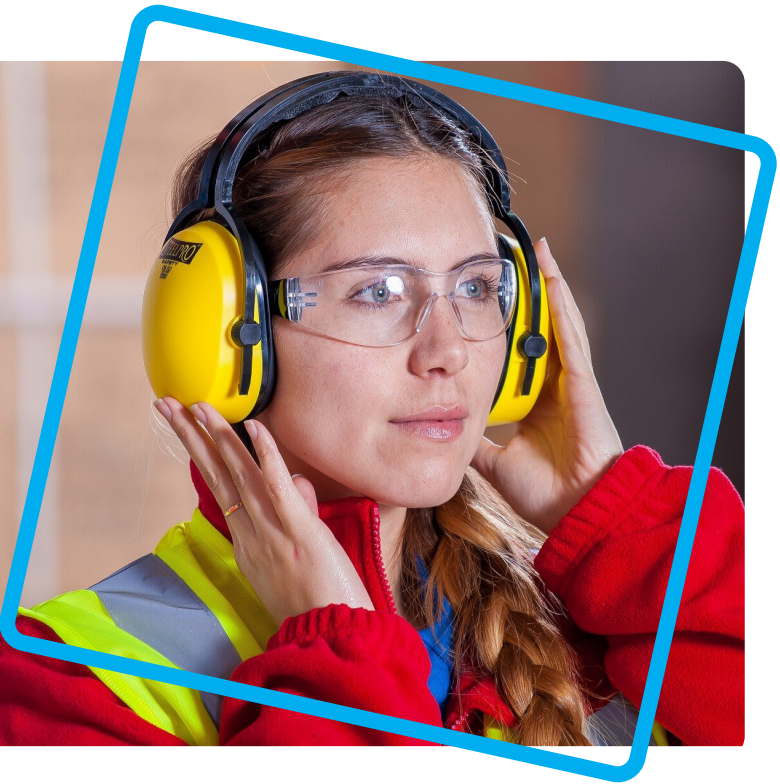
Who is this apprenticeship suitable for?

High quality operatives are vital in all logistics, distribution, storage, supply chain and warehousing environments. Our programme has been designed to offer high-quality training to individuals working in a range of different roles and sectors.

This Apprenticeship is ideal for operatives who engage with a range of people while working in a flexible manner that could include working different shift patterns or across a range of different departments. This apprenticeship focuses on those who are responsible for carrying our moving, packing and stock management roles in your organisation and can be delivered to apprentices new to your business or to existing staff as an opportunity for staff development.



Having a dedicated DBC Training development coach allows us to deliver this Apprenticeship using a combination of in person and virtual coaching giving a truly blended learning experience that fits around your business needs.

This Apprenticeship provides individuals with an improved understanding of topics such as; safe working practices, warehouse operations and processes, technology to improve productivity and working effectively with colleagues to improve performance.

Entry requirements

There are no formal entry requirements for the L2 Supply Chain / Warehouse Apprenticeship. Prior to enrolment onto this Apprenticeship DBC Training will conduct a skill scan with all applicants to ensure this is the right course to support their ongoing professional development.

Job Titles Include:

- Warehouse Operative
- Logistics Assistant
- Order Picker
- Stock Assistant

The components of the apprenticeship

Functional Skills: maths & English

Apprentices will be required to pass functional skills at Level 1 as part of this programme, unless they already hold a current transferable skills qualification e.g. (GCSE grade C / 4 or above, or Key Skills Communication Level 2).

Delivery Model

This is a work based qualification and will be delivered by qualified and experienced DBC Development Coaches. Our approach to delivery is bespoke to your organisation.

End-Point Assessment (EPA)

An EPA is an independent synoptic assessment carried out by an independent assessor at the end of the apprenticeship this confirms the apprentice's knowledge, skills and behaviours meet the required standard.

- Knowledge and behaviours test
- Practical Assessment

Duration: 15 months

Below is an example of a learner journey, DBC Training will work with you to create a bespoke pathway, tailored to the organisation and learner needs.

Off the Job Training (OTJ)

Off-the-job training is a learning activity away from the day to day duties of your job. A minimum 20% of the Apprenticeship has to be completed off-the-job. This can include training that is delivered in the work place, but will not include normal working duties. Examples of OTJ training include, but not limited to:

Activity	Examples of Valid OTJ
Workshops/masterclasses	Block or day release
Online learning	Online training modules and support materials
Mentoring	Support from line managers and colleagues
Continuous professional development	Any activity related to the job that develops new skills/knowledge
Reflection logs	Recording all learning that has taken place
Research	Background working to improve knowledge
Assessments and Assignments	Exercises or project reports
Revision for exams and EPA	Preparation for ongoing or and point assessment

Progression Opportunities

From the Level 2 Supply Chain / Warehouse Operative Standard it is possible for the right candidate to then progress onto other apprenticeships such as: L3 Team Leader / Supervisor or Supply Chain Practitioner L3.

Why DBC?

- We provide a strong customer 'first' ethos
- Highly effective, individualised teaching and learning
- High learner and employer satisfaction rates
- Bespoke and flexible learning programmes tailored to employer and learner needs
